

CRACKTORCH

"....Is Not The Problem"

LUNA015CD

RELEASED - June 3rd

" GET READY TO ROLL.... "

"Who knows how cracktorch have conjoured this bad magic? All I really know is that the world needs Cracktorch, now more than ever. A year ago, when this album was being written, I asked Mark Schlieder what it all meant. "All our songs", he told me, "are about parties that went wrong.. and trying to get the drugs." Now I ask you citizen, has there ever been a more noble or just pursuit in this rock n roll life? The thunder has returned to the mountain, the evil has been vanquished, all wretchedness has been spurned. All that is left is a gathering of the tribes, the time of the new hedonism. This is not just an album...this is the soundtrack for your new life. That is, if you're cool enough, and brave enough to grip the wheel with both hands, crush the pedal under your boot and ride this sucker all the way. 'How? *NOW!* Get ready to roll', rocker. It is true, CRACKTORCH...is not the problem. It is not the solution either, YOU ARE, they've merely provided you with the manual, a sonic blueprint for the revolution that's been boiling in your brain"

Selling Points

Huge Worldwide Press mailing

Will Appeal to fans of the ever popular retro rock scene, Hellacopters, Gluecifer etc

Already being chased by major labels in the USA. So get em while they're hot!

Euro tour planned for autumn 2002

Cracktorch are from Boston MA in the U.S of A and this is their first album. Bothers and sisters, consider the jams kicked the fuck out.

Like the Supersuckers, Urge Overkill, and Thin Lizzy before them, Cracktorch sparks an arena-ready flame. Like wet prophets on a motor city mission." - *The Weekly Dig by Sleazegrinder*

Line Up

Marc Schleicher:

Git/Vox

Chris Jackson:

Git/ Vox

Staci Flick:

Bass/ Vox

Nick Zampielo:

Drums
